LOCATION:

BACKGROUND:

Planned Acts of Kindness provides empowering and transformative education and action programs designed to help People, (NPOs) Non-Profit Organizations, (NGOs) Non-Governmental Organizations, Government Agencies and Companies achieve their Social Responsibility goals and objectives while providing greater Quality of Life for all.

“QUALITY OF LIFE” FOR ALL

Planned Acts of Kindness is a global outreach program where people wake up and on their cell phone, computer or device there is a new daily planned act of kindness that they can do with their family, friends, coworkers and in their community. The goal is to have tens of millions of people around the country, hundreds of millions of people around the world, waking up and doing the same thing on the same day, and unleashing that much powerful, positive energy in the world.

The key to living happier, healthier lives is not how much money you make or how much drugs you take, but rather the quality of your relationships and your sense of community. Planned Acts enhances these two things for people. And we gamified the system. There are dif-

ferent four achievements that you do during the month, your daily PAKs, engagement, volunteering with our organization anywhere around the world and support. And when you do these four activities during the month, you can level up, and then you are eligible for free gifts that we give away every single day to random people at that level. So, it's like Karma, “The More You Do, The Greater Your Rewards.”

But we have a second mission: The problems of the world — Climate change, pollution, overpopulation pandemics, war and terrorism — these problems aren't going to be solved governments or corporations alone. They're going to be solved by ordinary people around the world working together on common causes with a common focus, and that's what the Karma Club can do.

We can have millions of people in the Karma Club taking individual responsibility on these problems, and then they can come to together get governments and corporations to change their behavior. We have one planet and one people on the planet. The tipping points aren't 20 years or 30 years from now, They are now. And if we don't start acting like it, life on this planet will be tremendously different for billions of people, and not in a positive way.

JOIN THE REVOLUTION: PLANNED ACTS OF KINDNESS' SOCIAL RESPONSIBILITY "ONE PLANET' CLUB. BUILT ON THE PRINCIPLES OF CIVILITY, ETHICS, DIVERSITY, INCLUSION, SUSTAINABILITY & QUALITY OF LIFE FOR ALL!

Benefits To You:

- Club programs provide you with education and action programs that inspire you to be the best
- Club programs provide real-world experience
- Club programs help you enhance multiple skills
- Working on important issues provide valuable college and career development
- Expand your network of personal contacts for career and life goals
- Earn recognition for the work that you do
- Earn rewards for what you accomplish
- Helping others helps you live a longer, happier life

Benefits To Others:

- Helps people regardless of Nationality, Race, Religion, Gender, Age, Education or Economic Status
- Outreach, engagement and action programs directly help people with Quality of Life issues
- Club programs provide more people with opportunities to get involved and take action for their benefit & others
- Serves as example & inspiration for people to be better

Benefits To The Planet:

- Personal action reduces food waste, pollution, packaging, greenhouse gasses, energy consumption, climate damage
 - Club action helps conserve and protect resources
 - Club action benefits people locally, nationally & globally
- Club is a part of larger teams, groups, associations and coalitions that work better together to accomplish more than they could on an individual basis

SIGN-UP & GET CLUB CHARTER
